CONGRATULATES

Augusta Ada Lovelace
Award Winner

Professor Anita Jones
Department of Computer Science

NAMED BY THE
Association for
Women in Computing

In honor of her outstanding scientific
and technical accomplishments
Augusta Ada Lovelace Award Winner

Professor Anita Jones
Lawrence R. Quarles Professor of Engineering and Applied Science
Department of Computer Science

The Association for Women in Computing awarded the Augusta Ada Lovelace Award to Professor Anita Jones in recognition of her outstanding scientific and technical achievements, her technical accomplishments in software systems and computer security and her extraordinary record of public service, including five years as Director of Defense Research and Engineering at the U.S. Department of Defense.

The award is named in honor of the first computer programmer, Augusta Ada Lovelace, whose writings developed the idea of programming and explained the operation and theory of Charles Babbage’s Analytical Engine.
