The University of Virginia
School of Engineering and Applied Science

CONGRATULATES

2006 Society for Biomaterials
Clemson Award Winner

Dr. Cato Laurencin

University Professor with joint appointments in biomedical engineering and chemical engineering and the Lillian T. Pratt Distinguished Professor and chairman of orthopaedic surgery

HONORED BY

The Society for Biomaterials

For his significant contributions to the literature on biomaterials
Dr. Cato Laurencin

2006 Society for Biomaterials Clemson Award Winner

Among the highest honors bestowed by the Society of Biomaterials, the Clemson Award for Contributions to Literature recognizes an individual for significant contributions to the science or technology of biomaterials. Dr. Cato Laurencin received this honor for his lifetime contributions to the field, which include extensive publications in technical journals, significant critical analyses and frequent citations. His research areas include biomaterials, tissue engineering and controlled drug delivery.

Dr. Laurencin is a member of the Institute of Medicine of the National Academy of Sciences and a Fellow of the American Surgical Association, the American Academy of Orthopaedic Surgeons and the American Institute for Medical and Biological Engineering as well as the International Union of Societies for Biomaterials Science and Engineering.
