CONGRATULATES

2007–2008 President of the National Association of Multicultural Engineering Program Administrators (NAMEPA) Inc.

Carolyn Vallas
Director of the Center for Diversity in Engineering

ELECTED BY
NAMEPA

A national network of professionals who strive to improve the recruitment and retention of multicultural students earning degrees in engineering
Carolyn Vallas
2007–2008 President, NAMEPA

Founded in 1979, NAMEPA is a national network of educators and representatives from industry, government and nonprofit organizations who share a commitment to improving the recruitment and retention of African-Americans, Hispanics and Native Americans earning degrees in engineering.

Vallas, a winner of the 2007 Motorola Legacy Builders Award for her contributions to minority engineering program development, has been the director of the University of Virginia Center for Diversity in Engineering for more than nine years. Under her leadership, the center provides innovative and inclusive programs to enhance engineering student matriculation experiences. She works in partnership with faculty on recruitment initiatives and collaborates with corporations and government agencies such as the National Science Foundation on diversity programming.
